
The Autodesk software company has been on a roll this year, with two new versions of their Autocad design software and a revamp of their Motion builder 3D animation package. But at the same time, they have been plagued by a number of security vulnerabilities in their software. To help alleviate some of these concerns, Autodesk has made available a patchkeygen that users can run to activate the latest patches for all products. Users will no longer have to wait for months while waiting for Autodesk to get around to releasing patches for all their products. A. Screenshot of WinZip Self-Extractor B.
